Advance Directives Forms

The Maine Hospital Association (MHA) has created a standard form that most people in Maine use to create their health care advance directives. The MHA also provides instructions for helping you to understand and complete your advance directives.

We, at Legal Services for Maine Elders, have created an interactive version of the form that you can fill out online and then print.

Get the forms here:

Blank Advance Directives form (print and fill out by hand)
Use this form if your computer software cannot handle LSE's fillable form.

Fillable Advance Directives form
